

ZERO-WASTE SOLUTIONS FOR BUSINESSES

FULL-SERVICE & FULL-CIRCLE

Circular Services offers full-service materials management solutions that help your business reduce costs and achieve zero waste goals, while returning valuable materials to local supply chains.

Recycling Services

Tailored recycling service based on your business' waste profile and needs, including routine and on-demand collection, hauling, and processing of commercial and industrial recyclables.

Organics Services

Collection, hauling, and processing of food & green waste, including product de-packaging, that transforms organic waste into compost and renewable energy.

Secure Shredding

Collection, shredding, and certified destruction of documents, product, and media, with responsible downstream recycling of all shredded materials.

➔ The Circular Services Advantage

- ✓ **Save on disposal costs** with an all-in-one solution for collection, hauling, and processing.
- ✓ **Maintain compliance and transparency** with secure handling, detailed documentation, and diversion tracking.
- ✓ **Achieve zero-waste goals & reduce Scope 3 emissions** by diverting food, plastics, paper, and metals from landfill.

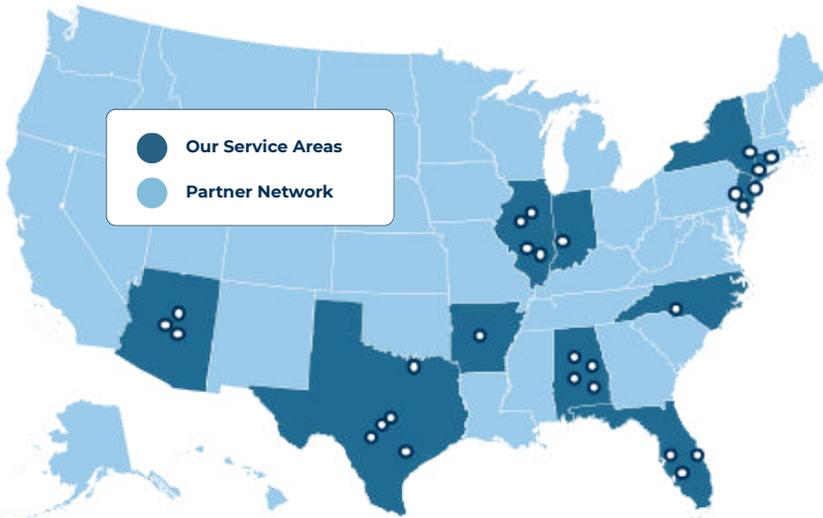

Materials Management for a Circular Economy

Circular Services is a leading developer and operator of **circular economy infrastructure and services and the largest private recycling company in the U.S.** We help businesses and municipalities reduce landfill disposal costs and enable local supply chains by ensuring materials are recovered, recycled, and reused.

businesses served

Customer Testimonials

"We've been partnering with [Circular Services] for 20 years. With their help we have saved millions of trees and created efficient recycling programs throughout our home office and distribution center. We couldn't ask for a better partner."

"Circular Services has been instrumental in helping our region reach new heights in our waste diversion efforts. This year alone we set records in the amount of cardboard recycled!"
